VIRTUAL LEARNING SERIES ON SUBSTANCE ABUSE: PERSON CENTERED PLANNING

The Virtual Learning Series on Substance Abuse is a part of the Iowa Department of Public Health's Division of Behavioral Health Initiatives that support prevention, treatment and recovery from substance use disorders and problem gambling.

OBJECTIVES

Person Centered Planning 101

Participants will be able to:

1. Describe the intersection between substance use disorders and co-occurring conditions such as brain injury, intimate partner violence, opioid use disorder and problem gambling.
2. Define brain injury, problem gambling, intimate partner violence and opioid use disorder.

Person Centered Planning 102

Participants will be able to:

1. Demonstrate how to identify co-occurring conditions that impact substance use disorder.
2. Discuss how to screen individuals with substance use disorder for brain injury, problem gambling, intimate partner violence and opioid use.

Intimate Partner Violence

Participants will be able to:

1. Assess individuals with substance use disorder for intimate partner violence.
2. Explain how to individualize and develop interventions for individuals impacted by co-occurring disorders.
3. Plan services for individuals with substance use disorder and experiencing intimate partner violence.

Problem Gambling

Participants will be able to:

1. Assess individuals with substance use disorder for problem gambling.
2. Explain how to individualize and develop interventions for individuals impacted by co-occurring disorders.
3. Plan services for individuals with substance use disorder and problem gambling.

Brain Injury

Participants will be able to:

1. Assess individuals with substance use disorder for brain injury.
2. Explain how to individualize and develop interventions for individuals impacted by co-occurring disorders.
3. Plan services for individuals with substance use disorder and brain injury.

Opioids and MAT

Participants will be able to:

1. Assess individuals with opioid use disorder.
2. Explain how to individualize and develop interventions for individuals impacted by co-occurring disorders.
3. Plan MAT services for individuals with opioid use disorder.

August 11th SCHEDULE:
