[VIEW FULL WORKSHOP DESCRIPTIONS](#)

To help us thrive across our organization, we need connections with one another to build partnerships and to be intentional about what we learn and how we put it to use. Join us in a digital scavenger hunt as a fun way to challenge yourselves and each other to connect with new people, document the seeds that have sprouted your learning, and cultivate organizational relationships so that together we can do the important work of helping all Iowans thrive.

1. First, download the Scavify app from the App Store or Google Play. Check the box to “allow notifications” so you can be the first to know when new tasks are shared. Then “Sign Up” using your work email and “Find a Hunt” - search for Extension and Outreach Annual Conference.
2. The home screen serves as your dashboard, where you can track your progress, view tasks, and check the leaderboard. The top three individual leaders at 2:30 PM will be announced at the closing session!
3. Tasks include uploading photos, checking in at designated locations, and answering questions - all designed to be enjoyable and add some merriment to your day. The more tasks you complete, the more points you earn, and the more connections you’ll make with your colleagues from across the state!

Participating in a scavenger hunt provides a fantastic opportunity to connect with new people and strengthen professional relationships. Information shared in the app, stays in the app, so those in the hunt can share in the fun. Not interested in another app on your phone? Partner up with someone to help them earn more points! Progress can be viewed in real-time so we can celebrate each other’s achievements and enjoy the camaraderie built through this interactive experience.
